FACE A FACE is designed in Paris by createur Pascal Jaulent. Far from standardized fashion, each concept draws its inspiration from modern art turning each frame into a unique piece of art.

This season plays with volumes and the vibrant impression created when sculpting the brow and boldly framing the eye. The trend of audacious “frames in frames” echo from one shape to the other and from one concept to the next.

Breathe in and explore a unique mastery of colours and expressions in Hall C2, Stand 118.

WOOW unites London beat and Paris fashion. The frames are full of humour and HAPPY colours. It's COOL, it's DESIGN and it's FASHION.

This season BIG is back but so is THIN. Colours are BRIGHT and DIM, MATT and SHINY. Why? Because with WOOW anything is possible, if it's FUN, loud and filled with good VIBES.

Stand out, be yourself and show your WOOW in Hall C2, Stand 114!

International studies show that more than 10% of the adult population have a small pupillary distance. Seen from a client point of view, it is disappointing that the selection of frames at the optician is very limited. This is why we proudly introduce NIFTIES.

The new NIFTIES collection is modern and cool. Our colors are on trend, deep and beautiful. The collection covers all needs: acetate, titanium, stainless steel for opticals and a select range of fashionable sun frames – for both men and women.
